Another interesting package by mail contained thirty-two living pupae of Platysamia cecropia and P. cynthia. I called upon the owner and he wrote out a request to Mr. Pratt to turn the package over to me, which was done and they were put where no harm would result from their introduction into this Territory. P. cecropia is one of the largest moths and the larvae are very general feeders. Other two packages by mail contained three varieties of sugar-cane cuttings from Queensland that were seriously infested with a skin fungus that first appears on the stems in smail pustuie-like protruberances afterwards rupturing the skin from which issue the black fungus the stems in smail pustuie-like protruberances afterwards rupturing the skin from which issue the black fungus in missioner, is somewhat offset by the decreases from Germany, Switzerland and Sweden. Notwithstanding the increase from Italy, that country, says the commissioner, may be recarded as waring probably reached the high water mark. Another importation of sugar cane from the Philippine Islands was burned upon December 4th. It consisted of two packages of wild cane that was said to grow to a height of 35 feet without cultivation. In reply to a question the importer informed me that he was not aware that it had any other merit. As it had evidence of simple justice.

From the experience this Territory has had with lantana you would hardly expect that any one would experiment further with that plant, but in the mail packages that arrived on the S. S. AND ONLY 40 PER CENT, CAME FROM SMALL CONTRIBUTORS. CORTELYOU REFUSES TO DISCUSS IT.

Washington, Dec. 3.—The Washington Post printed this morning, under a New York date, a three-column article that purports to give an account of the tunds collected by Chairman Cortelyou and Treasurer Bliss of the Republican National Committee for use in the cam paign of 1904, when President Roosevelt was elected. The Post says: the rtory is authoritative. It is claimed that the figures given are the same that will be sworn to by Treasurer Bliss and Chairman Cortelyou if they go on the stand in the insurance investigation in New York.

The total fund of the Republican Na-

tional Committee in 1904 is placed at \$1,900,000. The largest single contri-

campaign in 1896,

opposed the selection and did not in dorse the views of those recommending Hyde.

The bulk of the Republican fund is said to have been raised by committees designated by Bliss for work in New York, Chicago, Philadelphia, Bostoffice Box 866 ton and other large cities. These committees were subdivided, so that certain members would operate among men interested in certain lines of business. It is declared that Cortelyou made no pledges of any kind to any contributor, so there remain unpaid no political debts.

Cortelyou today positively refused to discuss the story. He also refused to make any comment on the state ment that eleven corporations having headquarters in New York were nessed an aggregate of \$225,000 for the purpose of aid in the election of President Roosevelt,
